

Phase 1: Create Your Client Ready Offer

 [Watch First: Offer Extraction Walkthrough](#)

What you'll see: How to use AI to identify the ONE problem you're uniquely positioned to solve for premium clients

Your Turn: Use the Client Ready Offer Extraction Prompt

 [Client Ready Offer Extraction Prompt](#)

Action Steps:

1. Copy the prompt and paste into Claude, ChatGPT, or your preferred AI tool
2. Follow the AI's questions—be specific about your experience and the coaches you've helped (or want to help)
3. Refine and iterate—don't accept generic positioning, push for your unique angle
4. Save your final offer stack—you'll need this for Step 2

Success Indicators:

You Know You're Done When:

- ☐ You have ONE clear high-stakes problem you solve (not "help coaches succeed")
- ☐ Your offer name makes the transformation obvious and premium
- ☐ You can explain what someone gets and why it's worth \$2K-\$5K in one sentence
- ☐ Your positioning highlights your unfair advantage (not generic coaching credentials)
- ☐ You feel confident charging premium prices for this focused solution
- ☐ The problem you solve is one you've personally experienced or solved for others

Common Pitfalls to Avoid:

- Don't try to solve multiple problems—focus on ONE core transformation
- Avoid vague positioning like "mindset coaching" or "business strategy"—get specific
- Don't accept AI's first suggestion if it sounds like every other coach
- Push for high-stakes problems, not surface-level issues
- Make sure your unfair advantage is actually unique to you

Pro Tip:

The best client ready offers solve problems that keep your ideal clients up at 3am. If the problem you're solving doesn't have serious consequences for inaction, you won't command premium prices.

STEP 1: Create Your Ideal Client Profile (30-60 minutes)

What you'll see: How to create a profile of coaches who have the high-stakes problem you solve and can afford to invest in solving it

Understanding the Framework

Before creating your ideal client, understand our approach:

[Ever-Evolving Avatar Framework](#)

Key Concept: We're not creating "struggling coaches" as a demographic—we're creating a living, breathing coach you can genuinely empathize with who has the specific problem you solve.

The 7 Ingredients of Every Premium Client:

1. **Active Interest** - Genuine urgency to solve this specific problem
2. **Exclusivity Points** - Believes they're uniquely positioned for your solution
3. **Cost Awareness** - Deeply understands consequences of staying stuck
4. **Renewed Belief** - Believes this problem IS solvable (just hasn't found the right approach)
5. **Vindication Opportunity** - Can reframe past coaching failures positively
6. **Empowerment** - Feels in control choosing you, not desperate
7. **Trust** - Built through specificity that mirrors their exact situation

Your Turn: Use the Client Generator Prompt

[Client Profile Generator Prompt](#)

Action Steps:

1. Copy the prompt and paste into your AI tool
2. Provide your client ready offer from Step 1 when AI asks
3. Be detailed about the coaches you've worked with or want to work with
4. Push for deeper insights—don't settle for "coaches who want more clients"
5. Save your complete ideal client profile—you'll use this for all messaging

Success Indicators:

You Know You're Done When:

- [] You can describe their 3am worry in vivid detail
- [] You know exactly what they've already tried (and why it didn't work)
- [] You can write in their voice using their exact frustration language

- [] You feel genuine empathy for their specific struggle
- [] You understand why they're willing to invest \$2K-\$5K+ to solve this
- [] You know their biggest fear about choosing the wrong solution

Common Pitfalls to Avoid:

- If avatar feels like "any coach"—get more specific about the exact problem
- Don't accept surface demographics—dig into psychological motivations
- Avoid broad generalizations—get specific about their daily coaching struggles
- Don't skip the financial layer—understand why they CAN invest at this level
- Make sure the problem you solve is actually keeping them stuck

Pro Tip:

If your avatar description could apply to any coach in any situation, it's too broad. Push AI for details so specific that only coaches with THIS exact problem would recognize themselves.

STEP 2: Create Your Messaging Map (15-30 minutes)

Watch First: Messaging Map Creation Walkthrough

What you'll see: How to extract key messaging themes that address high-stakes problems and premium positioning

The Messaging Map Framework

Your messaging map gives you 5 core message categories for all content, ads, and sales copy:

1. **High-Stakes Problem Amplifiers** - Specific struggles that make them say "this is my exact situation"
2. **Premium Outcome Activators** - Specific transformations worth investing \$2K-\$5K+ to achieve
3. **Objection Dissolvers** - Specific concerns about investing at this level (and how to address them)
4. **Unfair Advantage Triggers** - Why YOU are uniquely positioned to solve this (not generic credentials)
5. **Urgency Creators** - Why solving this NOW matters more than waiting

Your Turn: Use the Messaging Map Generator

Action Steps:

1. Copy the prompt and paste into your AI tool
2. Provide your client ready offer and ideal client profile from Steps 1 & 2
3. Be specific about premium positioning and high-stakes consequences
4. Save your messaging map—this becomes your daily content reference

What You'll Get:

- 40+ specific messages organized by category
- Content hooks addressing high-stakes problems
- Premium positioning language
- Clear differentiation from generic coaching offers
- Quick reference guide for daily use

Success Indicators:

You Know You're Done When:

- ☐ You have 5+ content hooks focused on high-stakes problems (not surface issues)
- ☐ You can identify which messages work for premium vs. budget clients
- ☐ You have specific responses to "\$5K is too expensive" objections
- ☐ You know exactly how to position your unfair advantage
- ☐ You have messaging that clearly differentiates you from other coaches
- ☐ You can create content without defaulting to generic coaching advice

Common Pitfalls to Avoid:

- Don't use generic pain points—focus on the SPECIFIC problem you solve
- Avoid broad desires—focus on outcomes that justify premium investment
- Don't ignore price objections—address why this problem is worth \$2K-\$5K+
- Avoid pushy urgency—create natural timing based on cost of staying stuck

Pro Tip:

Test your messaging by asking: "Would my ideal client pay \$5K to solve this problem?" If the answer isn't an immediate yes, the problem isn't high-stakes enough.

- ☐ Your messaging focuses on high-stakes consequences, not surface-level issues

Red Flags - Start Over If:
